REPORT OF SUPERINTENDENT OF SCHOOLS

TO THE BOARD OF EDUCATION:

As Superintendent of Schools I am pleased to submit for your consideration my annual report as to the condition of the public schools in the Town of Houlton for the municipal year ending March 1, 1934.

ENROLLMENT

The registrations in the various schools in town are as follows:

| Grade | 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | Ttl. |
|--------------|----|----|----|----|----|----|-----|-----|-----|-----|-----|-----|------|
| Pleasant St. | 38 | 32 | 35 | 37 | | | | | | | | | 142 |
| Longfellow | 30 | 32 | 24 | 35 | | | | | | | | | 121 |
| Bowdoin St. | 38 | 29 | 25 | 32 | 33 | 37 | | | | | | | 194 |
| Fair St. | 34 | 31 | 35 | 30 | 70 | 72 | | | | | | | 272 |
| Junior High | | | | | | | 122 | 109 | | | | | 321 |
| Niles | 8 | 3 | 5 | 6 | 2 | 4 | 7 | 3 | | | | | 38 |
| High School | | | | | | | | | 123 | 132 | 143 | 125 | 523 |
| | | | | | | | | | | | | | 1526 |

This enrollment approximates that of the past several years. In many communities there has been a decided increase in school enrollments during the past few years due to existing economic conditions. In Houlton we have always enjoyed a very high percentage in our school attendance and since we have no large manufacturing or other business enterprises which would involve large numbers of young people of school age, our attendance has been very constant. During the year there has been no serious outbreaks of contagious diseases in our schools. During the two months of January and February many colds were prevalent in the lower grades but not serious enough to close the schools. According to the 1933 census the number of persons in town between the ages of 5 and 21 totals 2057.

TEACHERS

Our schools opened in the fall with four new teachers on the staff. Mr. Harold Inman was elected to fill the vacancy in the English Department of the High School caused by the resignation of Mary Veayo. Miss Doris Parke accepted the position as teacher of Home Economics in the Junior and Senior High which was made vacant by Miss Ada Lemont having accepted a similar position in Lewiston. Miss Elizabeth Sinclair was secured for the sixth grade position at Bowdoin St. School formerly occupied by Miss Natalie Howard. Miss Norma Briggs was elected to teach the fifth grade at Bowdoin St. School formerly occupied by Miss Dorothy Weed, who is now at-

tending Columbia University. Miss Margaret Roach was appointed principal of Bowdoin St. School.

During the summer six of our teachers attended summer schools in various parts of the state and country. This index of interest in improvement is very commendable especially during this period when resources of teachers have been greatly reduced.

It was with regret that we found it necessary to temporarily drop music instruction as was formerly handled under a supervisor. In the curtailment of expenses, however, it was felt that this instruction would not be entirely lost, as the regular teachers have assumed the extra responsibility of carrying on the work of this department.

The policy of cadet instruction was introduced in our system during the latter part of the fall term. This provides for a qualified teacher to be placed in each building for the purpose of rendering assistance to the regular teacher, particularly along the line of helping slower pupils or pupils who have been absent. These teachers give their service without pay and are expected to observe all regulations applying to regular teachers. During the absence of the regular teacher the cadet teacher acts as a substitute and receives remuneration according to the schedule applying to substitutes. This arrangement has proven to be of mutual benefit to pupils from the standpoint of instruction and to the new teachers in gaining teaching experience. The following teachers have been assigned to the various buildings: Cadelia Putnam, Bowdoin St.; Effie Stantial, Pleasant St.; Barbara Wilson and Muriel Hallett, Fair St.; Averill Gellerson, Longfellow; Edith Hoskins, Junior High School.

Careful observation leads me to believe that the intellectual development of our pupils is very well taken care of. Teachers are fulfilling all the requirements of the state course of study and in many instances are giving instruction covering broader fields.

REPAIRS

Aside from many minor repairs too numerous to mention several larger repair projects have been carried out. For the past several years the boiler at Pleasant St. School has been in question as to its efficiency and its ability to carry through the next school year. Having an opportunity to purchase a suit-

able boiler at a very reasonable price it was deemed advisable to make the change during the present year. In the High School the tops of the desks in seven classrooms were sanded and varnished, making them serviceable for many more years. New iron stair treads were placed on the stairs leading to the boys' basement. It was necessary to patch a considerable area of the roof around the sky-lights and ventilators. Other general repairs were made throughout the building including painting, varnishing and murescoing. In the Junior High School general repairs were made throughout the building. The stage in the assembly room has been enlarged and raised by the pupils in the manual training class. General repairs were also made in the interior of Bowdoin St. School. Material for a new curtain for the High School Auditorium stage has been purchased and the curtain is now being made. This material is of a heavier type than the present curtain and will run on a track supported from the ceiling. This room is used a great deal by the schools as well as civic organizations of the town and I believe the addition of this new equipment will be an appreciated change.

SPECIAL COURSES

The instruction and work accomplished in the special courses in the Junior and Senior High Schools are of very high order. All instructors have their work at heart and give a great deal of extra time in outside projects wherein the academic work is practically applied. In the Manual Training department many items of equipment and furniture have been made as well as the remodeling of the stage in the Junior High School. In the Domestic Science department noon lunches have been given during the winter term making it possible for from sixty to seventy pupils to obtain the major portion of their noon lunch at the price of five cents. Visiting athletic teams have been taken care of by this department in the matter of giving an appropriate meal preceding basketball games. Contribution has been made to the social life of the school by giving suppers to various groups of the two schools. These activities have been carried on without any aid from school funds. Last year an incubator was purchased for the Agriculture Department on the partial-payment plan. Meeting of the payments was to be a project for the Future Farmers of this department. All payments were met when due last year and it is

expected by the end of this year the school will own a four-hundred machine as a result of this worthwhile project. Your attention is called to reports given by these departments in the following pages.

CONCLUSION

In bringing this report to a close I wish to express my appreciation for the loyal support and wise counsel given me during the past year by those who are interested in the progress and welfare of the pupils of this town.

Cordially yours

GEORGE J. CUMMING

REPORT OF PRINCIPAL HOULTON HIGH SCHOOL

Supt. George J. Cumming

Houlton, Maine

Dear Sir:

I herewith submit for your consideration my eleventh annual report as Principal of Houlton High School. The total registration for this current year is the largest in the history of the school, numbering five hundred and twenty-eight students enrolled by classes and courses as follows:

| Class | Course | | | |
|----------------|------------|------------|------------|-------|
| Freshmen | Col. Prep. | Commercial | Vocational | Total |
| Girls | 26 | 31 | 16 | 73 |
| Boys | 25 | 19 | 11 | 55 |
| Sophomores | | | | |
| Girls | 28 | 31 | 16 | 75 |
| Boys | 24 | 21 | 12 | 57 |
| Juniors | | | | |
| Girls | 26 | 37 | 19 | 82 |
| Boys | 27 | 22 | 12 | 61 |
| Seniors | | | | |
| Girls | 22 | 24 | 17 | 63 |
| Boys | 21 | 16 | 11 | 48 |
| Post Graduates | | | | |
| Girls | 1 | 6 | 0 | 7 |
| Boys | 3 | 3 | 1 | 7 |
| Totals | 203 | 210 | 115 | 528 |

Efficiency

Efficiency should be the watchword during this time of reconstruction following the period of depression, and the one greatest step toward efficiency in Education is the retention of experienced teachers of proven ability. Houlton High School was very fortunate, through the efforts of Superintendent George J. Cumming and the Board of Education, in being able to retain practically intact the entire corps of instructors of the previous year. These teachers have excellent professional training, are specialists to a marked degree in their particular departments, and are working together with that excellent

spirit of co-operation and interest so necessary if we are to obtain the results which the community has a right to expect from a Modern High School.

Scholastic Standards

I would commend to the citizens of Houlton consideration of the high scholastic standards of the High School. Houlton High has for several years been on the Approved List of the New England College Entrance Board, and any graduate of the school, in good standing, is entitled to the Certificate Privilege for College Entrance. This is a privilege enjoyed only by those Secondary Schools whose graduates show ability to accomplish college work with a minimum of failures. The midyear reports received from the many colleges in New England where Houlton High graduates are now attending, show that the same high standards of scholastic attainment obtain this year that have been characteristic in the past years. It is also significant to recall that last May, 1933, when our High School participated in the Statewide Scholarship Contests, under the supervision of the State University, the results of these competitive tests placed Houlton High among the best two or three schools in its size class in the entire state.

Meeting Needs of Community

In spite of a greatly curtailed budget, and an enrollment which surpasses that of any previous year in the school's history, practically the same broad courses of study are being offered and to a marked degree are fulfilling the needs of the community. An enrollment of well over five hundred boys and girls in a community with less than seven thousand population very strongly substantiates the statement. We who are responsible for the administration in the school are mindful of the modern objectives in Secondary Education, namely; that there shall be equal opportunities for all, that the great majority and not the small minority shall grow through scholastic training, as well as participation in the so-called Extra-Curricular activities which furnish excellent training for the real business of living in the adult years to come.

Training for Use of Leisure

In a world where rapid changes are taking place, both economic and social, the public High School finds itself confronted with duties and obligations little thought of a decade ago. The

possibility of the shortened hours of labor in industry and business as forecasted in the thirty to forty hour week must be recognized even though our school is located in an agricultural district. This Leisure, unless well directed, well used, is a liability, not an asset. It will become the duty of the school to provide instruction in the use of Leisure. And since they have the greatest, "carry over," into life situations, more and more the so called Cultural Courses will be exceeded by none in importance. Courses in Music and Art, Training in Morals and Ethical Character, provision for wholesome opportunities for Social adjustment, will no longer be considered as fad and frills, but will be considered as necessary for a changing world with greatly increased hours of Leisure and the attendant problems which will arise as a result.

School Activities

Our School Activities have contributed much of real value to the lives of the students, and through these "Miniature Realities" we have gone a long way towards attaining the recognized objectives of Secondary Education. During this past year our Student Activities have met with unusual success, not alone from the standpoint of winning school contests in athletics, debating, speaking, etc., but from the broader viewpoint of consideration of the benefits received by the individual, with the great majority of the student body participating in one or several of these wholesome forms of training for future citizenship. I feel that the various teachers of the school who have personal responsibility for the direction of these widely diversified activities deserve the highest commendation for their interest and constructive, sympathetic work along these lines, upon which it is scarcely possible to place sufficient emphasis.

List of Graduates

We are now graduating annually from Houlton High School approximately one hundred boys and girls, and surely this, in a town no larger than Houlton, must be a source of real pride to those citizens who have at heart the best interests of Houlton's Educational program. Following is a list of the graduates of June 1933:

COLLEGE PREPARATORY

Jessie Willa Adams, Mary Esther Adams, Florence Margaret Anderson, Howard Rollins Brackett, Walter Stanley Burt, James Roderick Clark, Edythe Loraine Cumming, Joseph Harold Deasy Dobbins, John Philip Dougherty, Dawn Evangeline Ervin, Mary Elizabeth Fairbanks, Anna Louise Fitzpatrick, Clyde Holmes Gardiner, Roy Burns Gartley, Enid Dorothy Gerow, Zelma Beiley Green, John Robert Haskell, Adolph Adam Koran, Gertrude Louise Maxell, Gladys Louise MacBurnie, Paul Frederick McCluskey, Herschel Kenneth McIntosh, Beryl Vivian McKeen, Fraser Kingston McMinn, Cedric Semple Osgood, Joseph Ludington Packard, Darrell Stephen Palmer, Harold Fletcher Porter, Ernest Earl Robinson, Dorothy Maude Stantial, Oscar David Stevens, George Wentworth Stewart, Elsie May Sweet, Philip Bray Thomas, Mora Catherine Wallace.

STENOGRAPHIC

Edith Evelyn Boutilier, Mildred Grace Brewer, Marie Louise Crawford, Carolyn Elizabeth Dickinson, Mary Katherine Dickinson, Marie Bernice Garcelon, Fern Irene Gartley, Jean Alberta Inghram, Phyllis Marie London, Doris Elizabeth Melville, Fred Lawrence Murphy, Geneva Josephine McCormick, Burnette Lois McQuarrie, Arthur Bennett Sherwood, Pauline Ellen Stewart, Eugene Vincent Williams.

ACCOUNTANCY

Frank Elbridge Bell, Harold Milean Bither, Madeline Alfreda Boles, Clarence Lewis Brewer, Uttley Leroy Burlock, Elwyn Matthew Carpenter, Alberta Nadean Corey, Erma May Downing, Doris May Gardiner, Evelyn Eleanor Hardy, Herschel Leroy Jones, Winifred Elizabeth Monohan, Ira Sanford Scott, Gladys May Stewart, Victor Allan Sweet, Rilla Theadora Wilcox.

VOCATIONAL

Elaine Kathryn Beck, Dexa Pauline Benn, Gerald Oran Briggs, Harold Coggin Craigs, Debora Miriam Davenport, John Emmett Donovan, Leslie Earl Estabrook, Oren K. Gentle, Guy Bernard Hannigan, James Earl Kervin, Asael Mellen Logan, Marjorie Pearle MacIntyre, Robert Smith MacIntyre, Walter David MacIntyre, James Francis McMonigle, Ira Augustus

Parks, Florence Rosalie Pooler, Gladys Josephine Smith, Clayton Ery Sowers, Vincent Warren Tapley, Helen Mae Waddington, Ruth Helen York.

GENERAL

Edwin Earl Barker, Violet Evelyn Grant, Chester Daniel Harris, Leah Marguerite Huggard, Charles Philip Wolhaupter.

Conclusion

In closing I would remind the citizens of Houlton that any necessary curtailment which lessens the efficiency of the school is to be regretted, because boys and girls can no more postpone mental growth than they can physical growth; because the best years for education can never come a second time; because it is now or never, or never so well and effective; because the half-educated or ill-educated boy or girl is that much handicapped in discharging civic responsibilities in later life to the highest benefit of the community. There is in Houlton an excellent spirit of co-operation on the part of the citizens, and a wholesome interest in the High School and its activities; and I bespeak the sentiment of the teachers in expressing appreciation for the support and assistance given this past year. It is an honor and a privilege to have worked in an educational system where there is inspiration and opportunity to accomplish definite ends.

Respectfully submitted

MILTON B. LAMBERT

Feb. 26, 1934

REPORT OF INSTRUCTOR IN AGRICULTURE

To George J. Cumming

Superintendent of Schools

Notwithstanding the trying years through which we have just passed, agriculture work in Houlton High School has been forging ahead and the outlook for the future is optimistic.

We have forty-two active members in our chapter of Future Farmers of America, which meets once a month. Our chapter

has carried out such projects as father and son banquet, sent two members to Lake Cobbosseecontee training school, taken a trip to Katahdin, sent five boys on a judging team to Orono for state contest and a basketball team that placed second in the Caribou tournament last spring.

Without doubt the outstanding achievement of the Future Farmers has been the purchase and management of a Mammoth incubator. The output for the spring of 1933 was about 7000 State Accredited chicks.

This we feel is a much appreciated service, since it offers the farmers chickens of the best quality, here at home, thus avoiding the dangers of long shipment, exposure to cold and other dangers of chicks from out of the state.

In order to keep the chicks as free from disease as possible we do no custom hatching. Last year there were a great many who could not get chicks from us due to not having their order placed soon enough.

As everyone knows, this incubator was bought by the F. F. A. boys and is being paid for out of the earnings. This spring we will make our last payments, when the machine becomes permanent property of the agricultural department.

It is hoped in the future that boys enrolled in agriculture will be supplying the eggs, as two boys have already made a start. Linwood Lawrence and Lawrence Jordan last spring hatched and raised some White Rock pullets. These have been tested by the state for pullorum disease and are on the State Accredited list. Thus there will be available a limited supply of White Rock chickens in addition to Rhode Island Reds and Barred Rocks.

To the citizens of Houlton I express my appreciation for the interest and support they have given the agricultural department of Houlton High School.

Respectfully submitted.

CHARLES W. WOOD

Instructor of Agriculture

REPORT OF PRINCIPAL OF JUNIOR HIGH

March 1, 1934

Mr. George J. Cumming
Superintendent of Schools
Houlton, Maine

Dear Sir:

As Principal of the Junior High School, I submit for your consideration my third annual report. Registration for the current year numbers 231 pupils, enrolled as follows:

| Group | Boys | Girls | Total |
|-------|------|-------|-------|
| C | 16 | 18 | 34 |
| O | 14 | 13 | 27 |
| U | 18 | 17 | 35 |
| R | 17 | 9 | 26 |
| T | 16 | 16 | 32 |
| E | 13 | 16 | 29 |
| S | 12 | 19 | 31 |
| Y | 10 | 7 | 17 |
| Total | 116 | 115 | 231 |

Only one change was made in the teaching personnel this year. The vacancy in the Home Economics Department caused by the resignation of Miss Ada Lemont is being filled by Miss Doris Parke.

The faculty is composed of the following:

Mr. Galen I. Veayo, Principal, Science, Guidance

Miss Ruth Daggett, English

Miss Ruth Perkins, Mathematics

Miss Ethel Henderson, Latin, English, Mathematics

Miss Ethel Dow, History

Miss Elmeda Thompson, Geography

Miss Margaret Qualey, Reading, Spelling

Mr. Daniel Chick, Manual Training

Miss Doris Parke, Home Economics

As a result of an educational measure, recently established by the superintendent of schools, we have the services of a cadet teacher, Miss Edith Hoskin. Her work is that of a helping teacher. Her remuneration is teaching experience and opportunity for occasional substitution.

At the time of the Aroostook County Teachers' Convention in Houlton, the Junior High School joined with other schools of the town in the exhibition of work of its various departments. The variety and quality of the exhibit made evident the value of a diversified program such as exists in a Junior High School.

A modern improvement in our school this year is the installation of an inter-communicating telephone system, connecting classrooms with the office. This time saving addition to the school was purchased by earnings from the numerous student activities.

Another worthwhile material advancement is a new stage constructed in the main room, built as a project by the Manual Training Department under the supervision of the instructor, Mr. Chick. This improvement aids greatly in the presentation of assembly programs and entertainments.

Although the services of a music instructor are greatly missed, the faculty has endeavored to meet the situation by assuming the direction and conduct of the music courses. This spring Junior High School will present its third annual operetta. The cast will include over fifty boys and girls.

As a means of motivating and stimulating interest in the study of Geography, visual aids in the form of motion pictures have been used occasionally during the current year. These films were lent to us through the courtesy of the Castle Film Company of New York.

To inculcate principles of good citizenship should be one of the primary aims of a Junior High School. Consistent with this purpose, is the training offered by student participation in the following extra-curricular activities:

- 1 Athletics
- 2 Assemblies
- 3 Socials
- 4 School Clubs
- 5 Operettas
- 6 Dramatic performances

The teachers of the school are working earnestly and enthusiastically to aid the pupils in scholastic and social progress. Many hours other than those of the regulation teaching day are given gladly and willingly to assist the administration and student body in the development of a well balanced educational program.

In closing, I wish to express to you, Mr. Cumming, and to the Board of Education, my sincere appreciation for the support and helpful suggestions which I have received in carrying out the educational policies of the school year.

Respectfully submitted,

GALEN I. VEAYO

REPORT OF INSTRUCTOR IN MANUAL TRAINING

February 22, 1934

Mr. George J. Cumming
Superintendent of Schools

Dear Sir:

I herewith submit for your consideration a report of my fifth year as Instructor in Manual Training in the Junior and Senior High Schools.

This year there are 130 boys enrolled in this course, 66 in the four seventh grades, 49 in the four eighth grades, and 15 in the one High School class.

The work in the grades is so planned that every boy is working on the same project at the same time. This makes demonstration before the whole class possible. The students make a graded group of projects; carefully selected to bring out certain tool processes and joints. Mechanical drawings are made of each project before it is made. Home Mechanics are taught in the seventh grades during the spring term. Manual Training in the High School is an elective subject. These students select their own articles of furniture to make which brings out more difficult construction. This increases their independence and encourages their originality.

I am very glad to report that the shop is very well equipped, having a new circular saw added to our equipment this winter.

The department helps in many ways by repairing school chairs, desks, etc., and making new furniture such as book cases, tables, etc., to be used in the several schools in the town. The department has just finished a new stage in the assembly room in the Junior High School, measuring 25 feet long, 11 feet wide, and 19 inches high, with disappearing foot lights.

The Manual Training exhibit held last fall proved to be very successful. There were brought together 133 projects consisting of end tables, smoking stands, clocks, costumers, tables, desk, magazine racks, book cases, fernery, writing table, candle sticks, radio table, victrola cabinet, piano benches, bedside tables, lamps, foot stools, taboretts, door stops, cravat hooks, book racks, tooth brush racks, pen trays, pencil trays, letter racks, also 45 bird houses, all of which were made differently. All of these projects show splendid workmanship and the several hundred people who attended the exhibit were very interested in them.

Manual Training is very often spoken of as one of the "frills" in education, but to the educators, and the people that realize the need of training the hands along with the brains are of a much different opinion.

The first training of the hands comes when the baby is in the cradle, he merely swings them about, exercising /them, "along with his lungs," later he learns to pick up things, then feeds himself, dresses himself, and at Junior High age he can use them as any normal child should, but soon he has got to do more. He has got to earn a living, and the large majority do so by the use of their hands. He has got to become skilful in some line of work in order to get a position in his desired occupation. Unfortunately one can not always start in as an apprentice; all kinds of occupations can not be taught in the public schools; or he can not always take the required education for the desired position, and must gain his skill through some other medium. This is what Manual Training is for, "to train the coordination of the eyes and hands so they will become skilful through the handling of tools." After this skill is gained as much as it is possible for him to do at that time, he will be that much further advanced in that occupation that he desires to follow when he starts to use the tools of that occupation or profession, whether it be a dentist, architect, surgeon, or plumber. The skill acquired with woodworking tools will carry over to whatever tools he will have to use to earn his living with, whether he is going to college or starting as a helper.

It is not merely the making of a few simple things to clutter up the house with, but it is the things they have put in their heads that one can't see, or do not think of that counts.

The small projects that they bring home are only a small representation of the things they had to learn in order to make it.

In order to have a better understanding of this department; more appreciation of the few choice articles your son brings home, or your neighbor, please visit our shops any time and we assure you that your time will be well spent.

Respectfully submitted

DANIEL W. CHICK

REPORT OF SUPERVISOR OF HOME ECONOMICS

To Mr. George J. Cumming,
Superintendent of Schools:

I hereby submit my first annual report as supervisor of home economics in the public schools of Houlton.

The aim of the work of the home economics department in Houlton is to teach the girls to be intelligent, efficient home-makers through the appreciation of their homes, the work that goes on in their homes, their families, the health of their families, and the part these groups play in the life of the community.

There are enrolled in this department, four seventh grades with a total of fifty-eight, four eighth grades with a total of sixty and one class of 15 high school students, making a total of one hundred and thirty-five students.

The work of the seventh grade includes:

- Food and Health Problems
- Simple Clothing Construction
- Personal Care Problems
- Home Care Problems

The work of the eighth grade includes:

- Food and Marketing Problems
- Clothing, Care, Construction, and Hygiene
- Simple Home Nursing and First Aid
- Child Care Problems

The work of the high school class includes:

Advanced Clothing Construction and Textile Study
 Handicraft
 Advanced Home Nursing and First Aid
 Home and Family Relationships

The school lunch was started early in the fall and has served lunch to an average of sixty students each day, at a minimum charge of five cents per day per pupil.

Several new sets of textbooks, several reference books, a new electric stove and some new dishes have added much to the efficiency of the department.

During the county convention held here in the fall, an exhibition of the students' work was held.

I wish to extend my gratitude to you, Mr. Cumming, Mr. Veayo and Mr. Lambert, and to all the others in the school department who have so loyally supported the work of this department during this year.

Respectfully submitted,

DORIS E. PARKE

Home Economics Supervisor

ADMINISTRATION

Probably no Board of Selectmen of Houlton, and certainly no Chairman, ever undertook to perform administrative duties under more disadvantageous conditions than the 1933 Board.

The climax of world wide depression had full grip on the shire town of the County. The Bank Holiday had been declared by the President. The welfare problem of the Community was acute, due both to unemployment and under-cost prices for potatoes and a staggering load of indebtedness for the County which affected especially the income and credit of every farmer and working man.

On entering office, \$63,000 of unpaid bills of previous administrations constituted a serious handicap. The "Bank Holiday" declared by the President had closed all banks in Houlton but one, the First National. From this the previous administration had borrowed \$15,000. When the Selectmen made their first attempt to borrow money from the only bank open for business, such restrictions had been placed upon it that the possibilities for securing more money to finance the town, until taxes should become due and payable November 1st, seemed remote.

With reports to the effect that one Boston Bank stood ready to make loans up to \$100,000 at 5% to the town, about the amount usually necessary in late years, to swing business until the tax due date, the Chairman and Treasurer set out for Boston.

After interviewing some twenty bankers, and as many bond and note brokerage houses, loans from a Boston source seemed impossible. Massachusetts bankers stated Aroostook County was in the financial "Black Area;" that the bonded indebtedness of many towns and cities in Maine was in excess of the 3% valuation indebtedness limit set by Massachusetts law for Massachusetts Savings Banks. Through an interview with the Bank Commissioner of Massachusetts, it was found Houlton was on the illegal list for borrowing in Massachusetts, in spite of its valuation basis of \$4,250,000, which did not include \$300,000 of real estate owned by the town, or its 1995 shares of stock in the Water and Sewerage Companies, reported to have combined assets of approximately \$700,000.

When the full facts of the inability of town officials' efforts to secure loans in Boston were realized, it was natural to

grasp at a financial straw as a last resort. The possibilities of securing an R. F. C. allotment for Houlton had occurred in a vague degree to the Chairman. He went from Boston to Augusta to interview Governor Brann. The Governor believed the welfare conditions in Houlton warranted an allotment of funds. He in turn passed the matter to Mr. Brown, then State Administrator of R. F. C. Mr. Brown approved the High School lot project for Houlton, and an allowance of \$3,000 per month to carry on the work, the work to begin May 1st, 1933. There was, however, one condition to obtain, Mr. Kelso, R. F. C. Field Representative from Washington, was to come to Houlton to finally approve the work.

Mr. Kelso came and approved the project with full knowledge and approval of the use of trucks to haul fill-dirt, and set the wage at 20¢ per hour on an 8-hour day basis.

There was one other condition emphasized. The Chairman of the Board was to administer both direct relief and indirect relief through the giving of employment, the money to be deposited in his name and checked out over his signature. The Chairman did not deposit R. F. C. moneys received as suggested, but did deposit them with the Town Treasurer, had them checked out on regular town warrants, and accountancy of receipts and expenditures appears in the Town Report.

The labor for filling, grading, landscaping, tree cutting and tree surgery on the High School lot kept some 100 men in two crews per week on half time employment for nine weeks.

Besides the High School lot, the Chairman personally supervised the building of six small houses which were occupied when built by those unable at that time to own or rent homes. Besides these two projects, about \$1,000 was spent from R. F. C. for labor putting certain roads in passable condition in the early spring.

In July certain town politicians complained concerning collection of taxes from men who were employed on R. F. C. projects. The Chairman offered to reimburse R. F. C. funds to the amount of the taxes collected, about \$450.00.

The displeasure of certain citizens relative to work on the High School lot project as supervised by the Chairman manifested itself when several who lived in the vicinity of the High School lot served an injunction on the Selectmen and the Park Committee to restrain them from cutting trees, the trees having been under the direction of expert tree surgeons before the

injunction was served. The malevolence of the injunctionists, and apparent improvement to the lot from cutting down certain trees and pruning others were reasons which later caused the Court to dismiss the case, thereby leaving the injunctionists the displeasure of paying the costs of the injunction and the disapproval of many citizens for bringing it.

Later those who complained about the collection of taxes, the improvement of the High School lot, and showed general dissatisfaction with the efforts of the Chairman to solve the welfare problem through the use of R. F. C. money, succeeded in causing Augusta and Washington officials to believe there was no welfare problem in Houlton warranting Federal funds, and more, the Chairman should not be permitted to continue to direct the work.

Soon after Democratic "Ring" politicians saw their political opportunities through the control of R. F. C. funds, troubles began for the Chairman of the Board, and then both "Ring" Democrats and "Ring" Republicans "climbed aboard," intent by hook or crook to stop R. F. C. funds from coming into Houlton. Whenever the Chairman invited State or Federal officials to tell him or show him what might be done to get in, or keep in, their good graces, they offered no definite suggestions. Meanwhile, R. F. C. faded out of the picture and C. W. A. became the recognized National Welfare Administration Agency, with the State Administrator, Mr. McDonough, and Mr. Brown, his assistant.

Mr. McDonough invited the Selectmen to Bangor to explain how C. W. A. projects could be drawn up for approval. Several were presented by the Board after being drawn up by the Chairman. Mr. McDonough verbally approved two. Nothing was started, however, in Houlton, because the several projects had not been approved officially. After several weeks of waiting, your Chairman called together the heads of all the civic organizations in the Community to offer the suggestion that the pressure of Community opinion might be brought to bear through the sending of telegrams to Mr. McDonough asking the approval of submitted projects.

The Selectmen went to Augusta on advice of the heads of the various civic and fraternal organizations. Projects were finally approved and when they were, Mr. McDonough informed the Chairman that certain parties in Houlton had requested that he have nothing to do with them. Since then the other two

members of the Board and Mr. Rogers have served on the local C. W. A. Committee.

Considering the President's statements that C. W. A. projects were to be administered without the practice of unfair politics or discriminations, the observations of many in Houlton, both in and outside the ranks of C. W. A. administration and employment, would lead them to conclude unfair politics and discriminations have been practiced.

Besides the R. F. C. projects in the spring and early summer, an accomplishment of the administration was the procedure used to borrow money from individuals instead of from the local bank which had invoked the National Banking Act in extending credit to the town. Individual taxpayers on invitation from the Board advanced some \$30,000 in payment of their taxes. Had it not been for these loans, employees in many departments and those having bills against the town would have been greatly inconvenienced.

A Community Welfare Council, consisting of the heads of various civic and fraternal organizations, was formed to assist the Selectmen in recording a welfare service rendered by various organizations, the better to enable them to expend welfare moneys of the town.

To the readers of this report and as a matter of record the problems of co-operation, of finance and of welfare have made the year 1933 a difficult one for high achievement. When one takes into consideration the reduced appropriations, the difficulties of many to pay taxes, and the total number of days' work given to inhabitants on any and all work projects, the number of families needing work or direct relief, the wonder should be how an administration achieved whatever successes it did, not because of itself, but in spite of itself.

C. W. A. projects accomplished, or in the course of accomplishment, have been or are, the McNally drain; the Madigan Hospital and Town drain; gravelling the Bangor and Ludlow Roads; placing fill on State Street; and the building of the Dam on B. Stream.

These projects were approved on condition that the town pay half the expense of pipe and materials on the McNally and Madigan Hospital drains. This approximates \$2,800 and appears in an article of the Town Warrant for appropriation.

TOWN DEBT

A \$5,000.00 appropriation has been recommended to pay the last note due November 1st, 1934, on the High School lot. The same appropriation is recommended to meet the serial bond due Nov. 1, 1934, and a \$7,000.00 appropriation should be made, but has not been recommended by the budget committee, to pay off part of the serial bonds, \$27,000 due June 1, 1935. These bonds were floated to help pay the cost of construction of the High School building in 1914.

THE WATER COMPANY

The Chairman of the Board, believing that the Water Company had been paying too high salaries and failing somewhat in the practice of economies becoming depression times, was credited by the Water Company in April, 1933, as being the cause of officials and employees receiving salary reductions amounting to over \$3,000. He maintained the company should not charge the town for municipal lights and water which annually cost about \$8,000, and then escape paying taxes which on a fair valuation basis would exceed \$15,000. As a result of this contention, a dividend of \$7,900, besides the dividend of \$2,000.00 and interest to pay the town water bonds due in May, was declared to pay the 1932 unpaid light and water bills. At the last Budget Committee meeting attended by the Selectmen, Mr. McIntyre stated that the Water Company is now in position to declare a dividend each year, at least for the next few years, sufficient to pay the Municipal light and water bills. An article appears in the Town Warrant which, if accepted, would instruct the Selectmen to draft a bill to incorporate the 1995 shares of stock of the Houlton Water Company into a "Water District," the directors of which would be elected by the voters of Houlton in annual Town meeting.

ACCOUNTING OF TOWN BUSINESS

The Chairman recommends a double entry system of book-keeping on an accrued basis and not on a cash basis. All bills payable would then be shown at the end of the fiscal year, and a truer picture of the financial standing of the town caused to appear.

TAXES

No business should run for seven months before tax moneys become available to pay bills and payrolls. Consequently, the fixing of the time for taxes to become due and payable on July 1st, not November 1st, would be most advisable. The discount rates for taxes should be 6% if paid on or before July 1st; 5% if paid on or before August 1st; 4% if paid on or before September 1st; 3% if paid on or before October 1st; 2% on or before November 1st; 1% on or before December 1st; and 6% annual interest added to tax bills after January 1st.

THE POLICE DEPARTMENT

Chief Hogan and Officers Sterritt and McGaw have rendered most efficient service throughout the year. The small reaction to their unpleasant duties, the expressions of appreciation from many citizens for their promptness in responding to calls, and the courtesy displayed by the force are matters of satisfaction to the Board.

THE FIRE DEPARTMENT

Houlton has every reason to be proud of its Fire Department. The equipment and personnel contribute to an efficient protection. A spirit of harmony, fraternity and readiness characterizes its service. The recommendations of the Chief both as to equipment and budget are sound.

The Department's consideration of ways and means to improve fire protection in the rural areas and the many compliments for its efficiency in the performance of duties make the department at once a source of pride and satisfaction to the taxpayers of Houlton.

ROAD DEPARTMENT

The severest winter in years, a near record snow fall, the lack of adequate snow removal equipment, of garage facilities for housing and repairing it are combining factors to challenge citizens to action in the matter of increased appropriations for the department.

The need of electing a Second Selectman to serve full time as Selectman and Road Commissioner should be evident to all. Outstanding achievements of the Department this year are the building of the sidewalk on Main Street from Burleigh Street to the crossing in front of the Catholic Church; the widening of

the road in front of the Catholic Church; the building of State Aid, Third Class and Special Resolve road; and the determination of its personnel, lacking proper snow removal equipment, to "carry on." A recommendation for a 10-ton tractor and plow and one 5-ton truck should meet with proper action on the part of the voters.

WELFARE DEPARTMENT

The combined efforts of the Welfare Council, Junior Charity League, Red Cross, Teachers, other interested individuals and Town officials constitute one of the evidences of practical Christianity lived by a modern people. At the town farm, a remodeling project involving the expenditure of \$5,000 helped make for the comfort and homelike conditions for the inmates and the housekeeper. Two two-room apartments with bath were added and a laundry equipped with soapstone tubs and hot and cold water was installed. A vegetable cellar, 30 ft. by 50 ft., now provides adequate storage facilities for vegetables produced on the farm. The heating plant was increased in capacity and radiation; a modern septic tank with 600 feet of tiling was built to insure more sanitary conditions. Thoroughbred stock was purchased for the farm. Another summer the main house and ell should be painted. One hundred barrels of Green Mountain potatoes were sold at \$2.50 per barrel; 700 at \$2.75, and 79 barrels of Cobblers at \$3.25.

The inmates of the farm are as follows: Mary Wilson, 79; Charles Nye, 82; Alice Powers, 50; Fred Slipp, 76; Harry Johnson, 54; Daniel McNeil, 72; George Shea, 66; William McQuarrie, 76; Nellie Batchelder, 62; Levi Corbin, 67; John Young, 67; Tom Elliott, 79; Elisha Parks, 65; Harry Burt, 56; Addison Victory, 79; Laura Victory, 38; Charles Timmons, 74; Arthur Pomeroy, 50.

William Hennessey, 81, died May 10, 1933. William Ather-ton, 75, died June 5, 1933. George Shea left October 26, 1933.

The Town has received allotments of flour and clothing from the Red Cross, and pork, butter, canned beef, eggs, beans and clothing from C. W. A., and is indebted to the Red Cross, C. W. A. and the following stores for their co-operation in distributing these supplies and clothing: Grange Store, Anderson Bros., Hallett-McKeen Co., Houlton Meat Supply, Grant & Daigle, Knox Brothers, Riley Brothers, Shea's Market, Carr's Store and all others who assisted.

The ladies of the Community Welfare Council have been on duty at the Community Welfare rooms during several months of the winter to administer to the needs of those calling for clothing. The Junior Charity League, in co-operation with the teachers of the school, has rendered a distinctive type of service to school children.

About 1,000 cords of wood have been cut in Amity since December 26th, 1933, for the Welfare Department. Camps were built for 35 men, and three teams have been employed almost steadily for yarding. \$1.00 has been the price paid for stumpage, \$2.00 for cutting. The cost of yarding has been about 75¢ and trucking \$2.00 per cord. The overhead due to the cost of building camp and equipment has been about \$1.00 per cord. About 450 cords have been trucked to town. About 200 cords of this amount have already been delivered.

HEALTH AND SANITATION

From the reports of milkmen, milk consumers, the State Department of Agriculture and statistics of the Milk Inspector, we believe Mr. Porter has accomplished splendid results this year. His efforts in the organization of the milk producers have met with hearty approval by the State Inspector at Augusta and with satisfaction to the producers and consumers alike.

EDUCATION

Already a new education is appearing in our progressive towns and cities. Under the leadership of wise educational philosophers and thousands of progressive teachers and administrators, new kinds of elementary and secondary schools are appearing. The spirit of these new schools is one of active work in the classes, in the various organizations and in the government of the school. Thus, pupils learn to live in a democracy by learning to govern themselves.

To this end a Board of Education should insist on a teaching personnel that will practice tolerance and sympathetically co-operate to establish and maintain correct ideals for a school system. The practice of unfair prejudices or politics by a Board or the encouragement of teachers in either constitute at once a menace and a challenge to those conscious of the need of a new education in a new age of planning.

THOMAS P. PACKARD

Chairman

ESTIMATED VALUATIONS OF TOWN PROPERTIES

Other Town Property which can not be strictly classed as Assets is as follows:—

| | |
|---|--------------------|
| Town Hall and Lot | \$10,000.00 |

LIBRARIAN'S REPORT

To the Trustees of the Cary Library:—

Gentlemen:—

The twenty-ninth annual report of the librarian is herewith respectfully submitted.

Number of volumes in the library January 1st, 1933, 17,652. Additions have been made as follows: By purchase, fiction 30, non-fiction 47; by gift, senior fiction 167, junior fiction 60, non-fiction 32; total additions 336. Removals as follows: Worn out 60, lost 40, given to Oakfield and Hodgdon school libraries 40; total removals 140. Net gain 196. Number of volumes in the library January 1st, 1934, 17,848. The giving away of 40 volumes sounds perhaps like reckless generosity just at this time, but they were books which had been withdrawn from circulation and shelved in the attic a good many years ago. Though really good worthwhile stories they are titles that are seldom called for, and one or more duplicate of each was left down in the stacks when these were moved to the attic. It seemed too bad to have them gathering dust and taking up needed space when they might be placed where they could be of some use. In the attic also were quite a number of volumes which had been given to the library at different times with the understanding that they might be catalogued, given away or sold. They, too, were duplicates of not very popular books already in circulation, so they were brought down and put on sale at prices rang-

ing from ten to fifty cents. The money thus gained paid for all the new fiction bought this year.

The loans for the year were classified as follows: Senior fiction, 45,303; junior fiction, 14,696; non-fiction, 10,730; total, 70,729. The largest circulation for one day was 542, for one week 1766, one month 7106.

Number of new borrowers, 1205. Five thousand two hundred and eighteen have taken out cards since January 1st, 1932, when the old cards were called in and new ones issued.

Total amount collected in fines, \$219.31; bills paid from fines by librarian, \$15.31; handed treasurer, \$204.00.

Postcard notices sent for overdue books, 328; letters and bills, 22. No account was kept of telephone and personal calls made by the librarian in the struggle to get back overdue books, but they were numerous.

The magazine subscription list is the same as last year except that the Nature Magazine, which was seldom used, was dropped and Popular Aviation substituted for it, and the Survey is taken in place of the Outlook. Mr. James Pierce continues to subscribe to Forest and Outdoors for the library. Mrs. Justin Rose sends the Humane Review. The Women's Home Companion is sent by an unknown friend. Dr. James Spaulding of Portland, generous as always, has sent 90 volumes during the year—both fiction and non-fiction. Mrs. Shirley Benn of Hodgdon has won the gratitude of both borrowers and staff by the gift of 20 northern and western stories, all in perfect condition. They are so popular that they stay in the library just long enough to be transferred from one borrower's card to another. Miss Jean Hayes has given a complete set of Bunny Brown books and also the Mildred Keith series, 25 volumes in all. A complete list of the names of those to whom the library is indebted for gifts of books and magazines through the year will soon be published in the Houlton paper.

The suggestion has been made—needless to say by persons who never come to the library and know nothing about the work done there—that it be closed several days each week, thus saving on lights, fuel and salaries. "Surely," they say, "there is no need of having the place open these cold winter nights." On one of the coldest nights in December the doors were opened at seven minutes before seven. By seven minutes after seven twenty-eight men and boys and three girls had been in. Some of them returned their books, borrowed others and

went out, but the majority settled down in the reading rooms for the evening. In the course of the next two hours seventy books were loaned and more than that number of people were in. The following clipping was left at the desk by someone who DOES use the library and who realizes its importance to the community: "Suppose a family's budget for food looked like this: Meat, per month, \$12.00; milk, per month, \$5.00; groceries, per month, \$35.00; salt, per month, 10¢. What would you think of the brains of the head of the house if he said, 'Strict economy is necessary, let us cut down on salt!' But to cut down on the relatively tiny amounts the community spends on its library service is to cut down on the intellectual salt which gives savor to most of life; which brings out the flavor and the meaning of many of life's happenings; which, especially in times of material hardship and privation, can do more than any other factor to make life palatable. Don't cut the salt out of your budget.—Dorothy Canfield Fisher."

Rather more than the usual amount of work has been done with the schools this year. Forty teachers—this includes Rick-er as well as the town and rural schools—have made use of the special teachers' cards. Some of the rural schools have from 20 to 30 books out on a teacher's list at one time. A graded reading list was made out this year for the use of the schools, and is posted in the library. The credit for this list should go largely to Miss Brown, who did most of the work of getting together the titles and typing them.

The library force remains the same: Evelyn H. Pearce, librarian; Lou G. Brown, assistant; Helen Dill, substitute.

Respectfully submitted

EVELYN H. PEARCE

| Assault and battery | 1 |
| Evading car fare | 8 |
| Breaking, entering and larceny | 2 |
| Larceny | 2 |
| | <hr/> |
| Total number of arrests | 138 |
| Number of front doors found unlocked by night police | 56 |
| Number of back doors found unlocked by night police | 34 |
| Number of back store windows found open by night police | 15 |
| Number of night lodgings given in lock-up | 522 |

Respectfully submitted

FRANK W. HOGAN, Chief of Police

MEAT INSPECTOR'S REPORT

To the Board of Selectmen
Houlton, Maine

The following report for 1933 is respectfully submitted:--

Number of animals slaughtered at the Houlton Dressed Meat Company:—

| | |
|-------------|------|
| Beef Cattle | 356 |
| Veal Calves | 621 |
| Hogs | 1037 |
| Sheep | 691 |

Seven hogs were condemned. Four were Ridglings, one had Hog flu, one had pneumonia and one had severe burns and mechanical bronchitis.

Two beef carcasses were condemned. One had strangulation of blood and one had pneumonia.

One sheep was condemned—bad injury to back with symptoms of septicemia.

Quite a number of livers were condemned for abnormal conditions.

The slaughter house has running water and good drainage and is kept in a fairly good sanitary condition.

F. T. CHENEY, Meat Inspector

REPORT OF CHIEF OF THE FIRE DEPARTMENT

To the Selectmen of the Town of Houlton:—

I herewith submit my report as Chief of the Houlton Fire Department for the municipal year ending March 1st, 1934:—

The department consists of 27 men, one Maxim combination truck with ladders and other small tools and hose body, one Reo combination equipped with pump, ladder and other small tools, also one steamer, one hose wagon, one hose sled fully equipped, one Seagrave ladder truck used as trailer, equipped with 130 ft. of ladders, one Britton hand tub in fair condition, 3,000 feet of No. 1 hose, 1,500 feet of No. 2 hose, 400 feet of No. 3 hose, 200 feet of 1½-in. hose, 4 No. 1 nozzles, 3 No.

2 nozzles, 2 shut-off nozzles, 2 cellar pipes, 2 bars, 7 axes, 2 plaster hooks, 1 timber hook with warp, 1 Kellman nozzle, 6 shovels, 6 rakes, 15 pails, 10 standard fire extinguishers, 3 siamese couplings, 6 large spanners, 10 small spanners, 10 lanterns, 1 shut-off gate, 3 nozzle holders, 5 gas masks, 1 span of horses, two sets of drop harnesses.

The department has answered 66 box alarms, 115 still alarms, 33 out of town calls, and has had 12 regular meetings. There have been 17 Chief calls.

I recommend a hydrant on the corner of Pleasant and Willard Streets and on the corner of Pleasant Street and the Foxcroft Road.

I wish to thank the management and operators of the Telephone Company for their service and accommodations in rendering it possible for us to save and protect property, and also commend the efficient manner in which our water supply is managed, especially during the cold weather.

Respectfully submitted

WILLIAM DOBBINS, Chief
Houlton Fire Department

REPORT OF PLUMBING INSPECTOR

To the Selectmen of the Town of Houlton:—

I hereby submit my report as Plumbing Inspector for the municipal year ending March 1, 1934:—

There have been twenty-one regular permits issued this year, six less than the previous report shows. These permits vary in the number of fixtures listed from one to eleven.

As usual I have made several inspections without charge for plumbers and homeowners to discuss the possibility of installing new or changing existing fixtures.

During the year an additional State Inspector was appointed as an assistant to Dr. Campbell, with the idea of checking up more carefully and of giving more aid to the local inspectors. The continued co-operation of plumbers and homeowners is very necessary in order that all may receive equal consideration.

I especially ask for the continued co-operation of the plumbers and an even more strict observance of the Plumbing Code as a means of smoothing out some of the problems which still exist.

Respectfully submitted

ALVIN L. COTTON

Plumbing Inspector

REPORT OF THE HEALTH OFFICER

TOWN OF HOULTON

I February, 1933, to March, 1934

We have been fortunate during the past year in regard to contagious diseases. Only three cases of Scarlet Fever, five of Chicken Pox and five of Tuberculosis were reported. Not a single case of Diphtheria or Typhoid Fever.

I still urge all parents and teachers to report promptly any suspicious rash among the children, for only in this way can we control the spread of disease.

As a precaution against Small Pox, I again urge parents to have their children vaccinated. All adults who have not been vaccinated within the past seven years should consult their family physician in regard to the advisability of vaccination.

Monthly reports received from the State Board of Health on analyses of samples from our Houlton Water Supply have all been satisfactory.

People using private springs and pumps should have the water tested by the State Board of Health at Augusta every year before beginning to use the water.

Few nuisances have been reported during the past year, and they have been attended to promptly by the responsible parties.

Respectfully submitted

J. A. DONOVAN, M. D.

Health Officer

MILK INSPECTOR

To the Selectmen of the Town of Houlton, I herewith submit my report as Milk Inspector for the year ending March 1st, 1934:—

We have 64 producers selling milk and cream in the town of Houlton. There are 23 stores and restaurants selling milk and cream. There are 2,500 quarts of milk sold in Town every day and 600 quarts of cream sold every week. In order to make one complete inspection of all the producers selling milk and cream, it is necessary to cover 230 miles.

All those who are delivering 5 or more quarts of milk have passed the State inspection very satisfactorily. We have organized a Milk and Cream Association and put the milk and cream on a standard basis.

I wish to thank the milk and cream producers for their co-operation in cleaning up their stables and dairies and for producing sanitary milk and cream.

I feel that the conditions in Houlton have improved at least 90%. I have tried throughout the year to co-operate with consumers in giving them information concerning milk and cream producers.

Respectfully submitted

WENDELL L. PORTER, Milk Inspector

REPORT OF FIRE INSPECTOR

To the Selectmen of the Town of Houlton:—

I herewith submit my report as fire inspector:—

There have been 356 inspections, and with the co-operation of the public we have tried to keep up the record of past years.

The schools and public buildings are in good condition. The basements in the business section are inspected often and are found to be clean, and the alley-ways have been kept clean, especially over Sunday.

Respectfully submitted

WILLIAM DOBBINS Fire Inspector
B. A. DONOVAN, Deputy Inspector
J. E. MITCHELL, Deputy Inspector

REPORT OF ROAD COMMISSIONER

To the Selectmen of Houlton,—

I herewith submit to you my report as Road Commissioner for the past year.

At the beginning of our road building season the greater part of the country roads were in very bad condition due to so much frost and heavy rains, this requiring a lot of labor and material to make them passable for traffic.

When the frost had left the roadbeds, they were all gone over with road machines and resurfaced with gravel on various places.

The usual amount of snow-fencing was done in the fall and the same mileage of our town roads were plowed and kept open for traffic, also seven and one-half miles in New Limerick and two and one-half in Littleton.

It has been the hardest season for this kind of work ever known in this section.

STATE AID

State Aid road work was done on the Ludlow road to a distance of 3,000 feet.

THIRD CLASS

Third Class work was continued on the B road to a distance of 2,050 feet.

SPECIAL RESOLVE

Special Resolve road work was done on the Porter Settlement road to a distance of 1,200 feet.

STREETS

The streets were all gone over, cleaned up and made ready for the Tarvia, a large amount of gravel surfacing was done and 26,334 gals. of Tarvia were put on. Due to so much new gravel, some of the streets required two coats of Tarvia, this making a shortage for some of the streets which were gone over the season before. Military Street was widened out about eight feet to a distance of one hundred fifty feet opposite the Catholic Church.

BRIDGES

Bridge work was done as follows: the Niles bridge on the B stream had new planking and one new carrying timber; Lowery bridge had some new stringers and was replanked; Porter Settlement bridge had new flooring with 2-in. plank, railings repaired and posts were added to make it stronger; the Peabody bridge on the Porter Settlement road had a new 2-in. plank floor and the railings repaired; the McIntyre road bridge had slight repairs such as the railing.

SIDEWALKS

A new cement walk was built on Main Street from Burleigh Street to the Catholic Church, while several of the other cement walks were raised and leveled up.

Many of the other walks were resurfaced with gravel.

Plowing on the walks this winter has been very heavy and expensive. There has also been quite a lot of sanding done.

DRAINS

550 feet of 12-in. pipe was dug up and re-layed on Franklin street, also 50 feet of 8-in. tile put in as branch drains.

The drain on Grange Street was partly dug up and relayed. Sections of drain on Military Street were dug up, cleaned out and relayed.

TOOLS AND EQUIPMENT

One ten-ton tractor with plow, 1 gravel loader, 1 rock crusher, 1 steam roller, 3 Reo gravel trucks, 2 Ford trucks, 2 Fordson road graders, 2 Sargent snow plows, 1 Ross plow, 1 home-made V-type plow, 2 sidewalk flangers, 4 sidewalk plows, 2 horse carts, 2 long sleds, 3 sets bob-sleds, 1 street-sweeper, 1 concrete mixer, 1 macadam road scraper, 1 air compressor pump, 1 sewerage pump, 2 tar-heating kettles, 1 gasoline engine with wood sawing attachment, 2 horse road plows, 2 double wagons, 1 pick plow, 2 land plows, 1 set double harness, 3 sets of blankets, 2 street sprinklers, 3 wheel-barrows, 2 slush scrapers, 12 pick axes, 6 long handle shovels, 12 snow shovels, 12 lanterns, 4 ice bars, 4 rock bars, 4 rock forks, 4

axes, 3 crosscut saws, 2 circular saws, 2 tool boxes.

I will refer you to the Selectmen's report where you will find all current accounts of money expended by me.

Respectfully submitted

JAMES E. FORTIER

Road Commissioner

REPORT OF SEALER OF WEIGHTS AND MEASURES

To the Selectmen of Houlton, Maine:—

My report as Sealer of Weights and Measures for the year 1933 is as follows:—

Number of scales tested:—

| | |
|-----------------------------|-----|
| Automatic Pumps | 141 |
| Counter Scales | 49 |
| Wagon Scales | 4 |
| Other Platform Scales | 86 |
| Beam Scales | 14 |
| Spring Balance Scales | 2 |
| Slot Personal Scales | 7 |
| Computing Scales | 19 |

This includes the Town of Houlton and vicinity, also New Limerick, Ludlow, Amity, Cary, Linneus, Hodgdon.

Respectfully submitted

FRED E. CROCKETT

Sealer of Weights and Measures

AUDITOR'S REPORT

I herewith submit my report for the year ending February 15, 1934. I have audited the books of the Selectmen, Treasurer and Tax Collector and have verified the cash balance and invested accounts. I have also verified the invested account of the Cary Library.

I HEREBY CERTIFY that, in my opinion, all incomes have been accounted for and all disbursements duly authorized.

For a detailed statement of the several accounts I would respectfully call your attention to them as printed elsewhere in this report; each department has fully itemized the different appropriations.

The bookkeeping department has been efficiently handled by Mrs. Helen R. Haskell, assisted by Miss Evelyn Mooers.

There have been 848 warrants drawn amounting to \$369,791.43, and all have been paid, leaving no warrants outstanding.

The warrants are all properly vouchered.

Tax balances outstanding:—

| | |
|------|-----------|
| 1929 | \$912.43 |
| 1930 | 5,115.51 |
| 1931 | 14,754.70 |
| 1932 | 20,323.85 |
| 1933 | 27,512.79 |

There is a cash balance in the Treasurer's hands of \$389.72.

Respectfully submitted

O. A. HODGINS

Auditor

BUDGET COMMITTEE RECOMMENDATIONS

We the members of the Budget Committee, make the following recommendations of appropriations for the ensuing year:

WARRANT

To FRANK W. HOGAN, one of the Constables of the Town of

Houlton:—

Greeting:

In the name of the State of Maine, you are hereby required to notify the Inhabitants of said Town of Houlton, qualified by law to vote in Town affairs, to assemble at the High School Building in said Town of Houlton on Monday, the Nineteenth day of March, 1934, at nine o'clock in the forenoon, to act upon the following articles, to wit:—

- Art. 1 To choose a Moderator to preside at said meeting.
- Art. 2 To choose all necessary Town Officers for the ensuing year.
- Art. 3 To see if the town will vote to instruct the Selectmen to appoint a Road Commissioner in accordance with Section 16 of Chapter 5 of the Revised Statutes.
- Art. 4 To see if the Town will vote to elect and elect a Road Commissioner for the ensuing year.
- Art. 5 To see what sum of money the Town will vote to raise and raise for General Government, as follows: Town Officers; Town Offices.
- Art. 6 To see what sum of money the Town will vote to raise and raise for Protection of Persons and Property, as follows: Police Department; Fire Department; Public Parks; Insurance and Expense.
- Art. 7 To see what sum of money the Town will vote to raise and raise for Health and Sanitation, as follows: Health Officer; Tuberculosis; Public Dump; Milk Inspector; Meat Inspector; Plumbing Inspector; Vital Statistics.

- Art. 8 To see what sum of money the Town will vote to raise and raise for Lights to light the streets of the village, Town Hall, Engine House, Public Park and Town Clock.
- Art. 9 To see what sum of money the Town will vote to raise and raise to pay for rent of hydrants.
- Art. 10 To see what sum of money the Town will vote to raise and raise for Cemeteries.
- Art. 11 To see if the Town will vote Yes or No on the question of appropriating and raising money necessary to entitle the Town to State Aid as provided in Section 19, Chapter 28 of the Revised Statutes.
- Art. 12 To see what sum of money the Town will vote to raise and raise for Highways and Bridges, as follows: Maintenance; State Aid; Sidewalks; Third Class Roads; Road Commissioner.
- Art. 13 To see what sum of money the Town will vote to raise and raise for the application of Tarvia to the streets of the Town.
- Art. 14 To see what sum of money the Town will vote to raise and raise for Welfare and Mothers' Aid, as follows: Town Farm; Poor Off the Farm; Mothers' Aid.
- Art. 15 To see what sum of money the Town will vote to raise and raise for the support of the Cary Library.
- Art. 16 To see what sum of money the Town will vote to raise and raise for Education, as follows: Superintendent; Common Schools and High School; Common Schools and High School Repairs; Common School and High School Equipment; Common School and High School Incidentals; Vocational Courses; Physical Education, and how the same shall be expended.

-
- Art. 17 To see what sum of money the Town will vote to raise and raise for the support of the Southern Aroostook Chapter of the American Red Cross.
- Art. 18 To see if the Town will authorize the Selectmen to arrange for the maintenance of the Ladies' Comfort Station at the Salvation Army Community House on Court St.
- Art. 19 To see if the Town will authorize the Selectmen to arrange for a Community Skating-Rink.
- Art. 20 To see if the Town will vote to plow the roads and streets of the Town, and what sum of money the Town will vote to raise and raise for that purpose.
- Art. 21 To see if the Town will vote to authorize the Selectmen to enter into an arrangement in conjunction with other towns with the State Highway Commission, for the removal of snow from its highway and town ways under the provisions of Section 52, Chapter 28 of the Revised Statutes.
- Art. 22 To see what sum of money the Town will vote to raise and raise for the maintenance or employment of a band of music for municipal purposes and celebrations as provided by Chapter Five, Section 80 of the Revised Statutes.
- Art. 23 To see what sum of money the Town will vote to raise and raise for Interest.
- Art. 24 To see what sum of money the town will vote to raise and raise for the following purposes: Memorial Day; Discounts; Abatements; Miscellaneous.
- Art. 25 To see if the Town will vote to accept the provisions of the Maine Workman's Compensation Act, Chapter 55 of the Revised Statutes.

- Art. 26 To see if the Town, as owner of nineteen hundred ninety-five (1995) shares of stock of Houlton Water Company will instruct the Selectmen at any legal meeting of said Houlton Water Company to vote said stock in favor of the following proposition: To elect Directors of said Houlton Water Company.
- Art. 27 To see if the Town will vote to authorize the Selectmen for and in behalf of the Town, to vote such stock of the Houlton Sewerage Company as may be owned and controlled by the Town by virtue of its ownership in said Houlton Water Company, in favor of the following proposition to wit: To elect Directors of said Houlton Sewerage Company.
- Art. 28 To see if the Town will vote to instruct the Selectmen to draft a bill to incorporate the 1995 shares of stock now held in the Houlton Water Company into "The Houlton Water District" with directors to be elected by the voters at each annual Town Meeting, said bill, when accepted by the voters at a Special Town Meeting, to be introduced into the next regular session of the Legislature of the State of Maine.
- Art. 29 To see if the Town will authorize the Town Treasurer, under the direction of the Selectmen, for such sums as the Selectmen shall see fit to accept therefor, to sell and convey all right, title and interest in and to such parcels of land bid in at tax sales as the Town acquired under Tax Deeds.
- Art. 30 To see if the Town will vote to authorize the Selectmen to bring writs of entry for the recovery and possession of such parcels of land as have been conveyed to the Town for the non-payment of taxes and the time of redemption having expired.
- Art. 31 To see if the Town will vote to raise and raise the sum of \$800.00 for school for Boy Scouts, the money to be spent under the direction of the Katahdin Council Boy Scouts of America.

- Art. 32 To see if the Town will vote to repeal and repeal its action taken at the Special Town Meeting held on July 1st, 1933, whereby it voted to permit amateur sports, as provided in Chapter 245, Sections 39A to 29E, inclusive, Public Laws 1933, under Art. IV of the Warrant for that meeting.
- Art. 33 To see if the Town will vote to raise and raise \$5,000.-00 to pay the note, due in 1934, on the new High School Lot, Main and Pleasant Streets.
- Art. 34 To see if the Town will vote to raise and raise \$5,000.-00 to pay the serial bond which matures Nov. 1st, 1934.
- Art. 35 To see if the Town will vote to raise and raise \$7,000.-00 to pay a part of the Town Bonds, Nos. 150-176, being \$27,000 in all, maturing in 1934.
- Art. 36 To see if the Town will vote to authorize and authorize the Selectmen for and in behalf of the Town to issue bonds of the town in an aggregate sum not to exceed \$20,000 for the purpose of refunding Town Bonds, Nos. 150-176, inclusive, maturing in 1934, said bonds to be serial bonds, and to authorize the Selectmen for and in behalf of the Town to determine the rate, denomination and date of maturity thereof, and for and in behalf of the Town, to execute, issue and negotiate the same.
- Art. 37 To see if the Town will vote to accept the provisions of Sections 38 to 52, inclusive, of Chapter 5 of the Revised Statutes of Maine, in relation to the election of officers by secret ballot.
- Art. 38 To see if the Town will vote to raise and raise the sum of \$2,800.00 to pay the bills incurred by the local C. W. A.
- Art. 39 To see if the Town will vote to authorize the Selectmen to reimburse Martin A. Harkins for damage to

his private road and driveway, same amounting to \$185.00.

- Art. 40 To see if the Town will vote to elect and elect a Budget Committee to recommend to the next annual Town Meeting the necessary appropriations for the next ensuing year.
- Art. 41 To see if the Town will vote to authorize the Superintending School Committee to appoint one or more school physicians and to designate the number to be so appointed.
- Art. 42 To see if the Town will vote to elect a special Municipal Board of Mothers' Aid to consist of the Overseers of the Poor, Ex-Officio, and one woman member and to elect one woman member.
- Art. 43 To see if the Town will vote to elect and fill any vacancy on the Park and Cemetery Commission Board.
- Art. 44 To see if the Town will vote to accept for the purpose therein named, the bequest contained in Section Five, Paragraph Six of the last Will and Testament of Mary Alice Lane, late of Houlton, in the County of Aroostook and State of Maine, deceased. Said last Will and Testament being dated June 17, 1929, and the same having been duly filed and allowed in the Probate Court within and for said County of Aroostook, Said Section Five reads as follows, to wit: "To the Inhabitants of the Town of Houlton, one of said equal parts, being one-eighth of the remainder of my said Estate as a fund the income from which shall be used to assist in defraying the expenses of instruction to Manual Training and Domestic Science in Houlton High School."
- Art. 45 To see if the Town will vote to accept for the purpose therein named the bequest contained in Section Six of Paragraph Six of said last Will and Testament of the said Mary Alice Lane deceased. Said Section Six

reads as follows, to wit: "To the Inhabitants of said Town of Houlton, one of said equal parts, being one-eighth of the remainder of my said Estate, as a fund the income from which shall be used to assist in defraying the expenses of a Children's Play Ground."

- Art. 46 To see if the Town will vote to accept the list of jurors, as prepared by the Municipal Officers, Town Treasurer and Town Clerk.
- Art. 47 To see if the Town will vote to authorize the Selectmen to procure a temporary loan or loans, for the purpose of paying the temporary indebtedness of the Town incurred in defraying the running expenses for such purposes as will be authorized by votes of the Town at its annual Town meeting to be held March 19th, 1934, said loan or loans to be paid during the year out of the money raised during the current year by taxes, said loans to be in anticipation of the collection of said taxes, and to authorize the Selectmen to issue for and in behalf of said town, the notes of said Town, for such temporary loan or loans, and to fix the amount, rate of interest, maturity and conditions of said notes.
- Art. 48 To see if the Town will fix a time when taxes shall be due and payable, and will vote to make any discount on taxes paid, at such time or times as it may determine, and, if so, what percent, also fix a time and rate of interest to be added upon taxes unpaid.
- Art. 49 To see if the Town will vote to elect, and elect, one Fire Ward, who shall be Fire Inspector, under provision of Section 47, Chapter 35 of the Revised Statutes.
- Art. 50 To see if the Town will vote to instruct the Assessors to employ one Real Estate Valuation Expert to assist them in making a re-valuation survey of all real estate in the Town of Houlton for the purpose of a more equitable assessment of taxes.

- Art. 51 To see if the Town will vote to elect and elect the following Committee to study the various types of Commission Government and compile a bill which shall give the Town annual control of the election of its Selectmen or Councillors and the Manager appointed by them; the Board of Councillors or Selectmen to serve as the Superintending School Committee; said bill compiled by the Committee to be submitted at a special Town Meeting of the voters of Houlton, and if accepted, said bill to be introduced into the next regular session of the State Legislature: T. Victor Holdaway; Gordon McKeen; James E. Gartley; G. Rupert Ervin; Roy Bither; James C. Madigan; Jason Hassell; Horace Hughes; Aaron Putnam; B. S. Green; Albert E. Moors; T. P. Packard; Fred Logan; Charles McCluskey; John G. Potter, M. D.
- Art. 52 To see if the Town will vote to ratify the doings of the Selectmen whereby they abated the taxes published in the Town report, March 1st, 1934.
- Art. 53 To see if the Town will accept the Town Report as published by the Selectmen, March 1st, 1934.

The Selectmen give notice that they will be in session at the Selectmen's office in said Town, March 15th, 16th, and 17th, 1934, at nine o'clock in the forenoon, for the purpose of correcting the list of voters.

Given under our hands at Houlton, Maine, this 12th day of March, 1934.

THOMAS P. PACKARD
FRANK A. LOGAN
SAMUEL C. WEBBER

Selectmen of Houlton, Maine
